Subject: Business Update

Dear Sir/ Madam,

We are pleased to provide the following business update of **Bondada Engineering Limited** (“the Company”) covering its Main Board migration application, strong order book position, expansion into the Defence sector.

1. Main Board Migration Status

The Company has successfully filed its application with **BSE Limited and NSE Limited on 31st August 2026** for migration from the **SME Platform to the Main Board**, along with the applicable documents. The proposed migration to the Main Board is an important milestone for the Company and is expected to further enhance its visibility, investor participation, liquidity and access to the broader capital markets, subject to the approval of the respective Stock Exchanges and fulfilment of applicable regulatory requirements.

2. Strong Order Book of ₹10,023 Crores

As on **31st July 2026**, the Company has an aggregate order book of approximately **₹10,023 Crores**, The Company's strong order book provides a robust revenue visibility and establishes a strong foundation for its long-term growth strategy. The Company believes that the execution of the existing order book, along with new business opportunities, will support its strategic objective of reaching **25 GW of cumulative renewable energy capacity by 2030**.

3. Expansion of Defence Business – Bondada Dynamics Private Limited

Bondada Dynamics Private Limited, the Company's Defence sector subsidiary, has recently acquired **KCS Engineering Solutions**, strengthening its capabilities and presence in the Defence sector. Following the acquisition, the Defence business has witnessed significant growth, with its order book increasing to approximately **₹2.10 Crores within a short period**. The Company is also actively participating in various Defence tenders covering **different Defence applications and requirements**, with the objective of expanding its Defence business and building a stronger order pipeline in this strategic sector. The Company is actively exploring strategic inorganic growth opportunities across products and services, with a strong focus on high-growth defence applications, to expand its market presence, strengthen capabilities, and create long-term shareholder value.
