PRESS RELEASE

ORIENT TECHNOLOGIES REPORTS STRONG Q2 FY27 PROFITABILITY ON HIGHER MANAGED SERVICES CONTRIBUTION; BOARD ANNOUNCES INTERIM DIVIDEND OF 20% OF FACE VALUE PER SHARE

Consolidated EBITDA rises 45.6% QoQ as margins expand by 263 basis points to 10.20%; growing managed services business drives improved operating performance

Mumbai, November 2, 2026: Orient Technologies Limited (BSE: 544235; NSE: ORIENTTECH), a leading provider of IT infrastructure, cloud, cybersecurity and digital transformation solutions, announced its financial results for the quarter and half year ended September 30, 2026, alongside an interim dividend announcement of ₹2 per equity share.

The Company reported a strong sequential improvement in profitability during Q2 FY27, driven by a higher contribution from its managed services business, an improved revenue mix and disciplined operational execution.

Consolidated EBITDA increased 45.6% quarter-on-quarter to ₹22.45 crore, while EBITDA margin expanded by 263 basis points to 10.20%, compared with 7.57% in Q1 FY27. The performance underscores the Company's continued focus on strengthening its services-led business model, improving operational efficiency and building sustainable, recurring revenue streams.

Consolidated Financial Performance

On a consolidated basis, Orient Technologies reported stronger operating profitability in Q2 FY27, with improved EBITDA performance and margin expansion.

₹ in crore, except EPS and percentages

Particulars	Q2 FY27	Q1 FY27	H1 FY27	Q2 vs Q1 Improvement
Total Income	220.06	203.77	423.83	7.99%
EBITDA	22.45	15.42	37.87	45.59%
EBITDA Margin	10.20%	7.57%	8.94%	+263 bps
Profit Before Tax (PBT)	14.74	6.58	21.32	124.14%
Profit After Tax (PAT)	11.72	5.17	16.90	126.66%
Earnings Per Share (₹)	2.56	1.13	3.69	126.55%

Standalone Financial Performance

Orient Technologies recorded an improvement in standalone operating performance during Q2 FY27, reflecting stronger execution and a growing contribution from its services portfolio.

₹ in crore, except EPS and percentages

Particulars	Q2 FY27	Q1 FY27	Q2 vs Q1 Improvement
Total Income	217.64	201.34	8.09%
EBITDA	21.02	14.66	43.39%
EBITDA Margin	9.66%	7.28%	+238 bps
Profit Before Tax (PBT)	13.65	6.09	124.05%
Profit After Tax (PAT)	10.18	4.49	126.86%
Earnings Per Share (₹)	2.22	0.98	126.53%

Improved Revenue Mix Supports Margin Expansion

A key contributor to the Company's Q2 FY27 performance was the increased contribution from its services business, particularly managed services engagements.

During Q2 FY27, revenue from services increased to ₹130.99 crore from ₹104.83 crore in Q1 FY27, representing sequential growth of approximately 24.95 %. Revenue from products decreased to ₹88.78 crore from ₹97.09 crore.

Based on the revenue-mix figures, services contributed approximately 59.60% of revenue in Q2 FY27, compared with 51.92 % in Q1 FY27. The higher contribution from services, alongside improved operating performance, supported the expansion in consolidated EBITDA margin to 10.20%.

For H1 FY27, the consolidated financial results reported total income of ₹423.83 crore, EBITDA of ₹37.87 crore and PAT of ₹16.90 crore, with an EBITDA margin of 8.94%.

The improved revenue mix, supported by a higher contribution from managed services and improved operating performance, contributed to the expansion in EBITDA margins.

The Company continues to strengthen its services-led portfolio through infrastructure management, cloud operations, cybersecurity and technology lifecycle management, with an emphasis on long-term customer relationships and recurring revenue opportunities.

Strengthening Cloud and Managed Services Capabilities

Orient Technologies continues to invest in cloud architecture, modernisation and emerging technology capabilities to support customers in their digital transformation journeys.

Ravindra Malpute, Head of Cloud Solutions at Orient Technologies, leads the Company's cloud transformation and innovation initiatives. An AWS Brand Ambassador, he brings over a decade of experience in cloud architecture and digital transformation, with a focus on designing secure, scalable and cost-optimised AWS solutions.

His areas of focus include cloud adoption and modernisation, security, operational excellence, Generative AI, Agentic AI, cloud automation and FinOps. These capabilities support the Company's objective of helping enterprises improve cloud efficiency, strengthen governance and derive greater value from technology investments.

AWS Managed Service Provider Recognition

Orient Technologies' recognition as an Amazon Web Services (AWS) Managed Service Provider (MSP) marks an important milestone in strengthening its cloud services capabilities.

The recognition reinforces the Company's ability to deliver managed cloud operations, infrastructure modernisation, security, optimisation and ongoing technology management for enterprise customers.

It further supports Orient Technologies' focus on expanding its managed services portfolio and delivering secure, scalable and cost-efficient cloud solutions.

Advancing Managed Services Through OHMS 2.0

The Company continues to enhance its services-led proposition through OHMS 2.0 (Orient Hosted Managed Services), its integrated managed services framework built around four strategic pillars:

Operate: Deliver operational excellence through proactive infrastructure and technology management.

Hedge: Strengthen cyber resilience, risk management and business continuity.

Modernise: Enable cloud transformation, automation and technology modernisation.

Scale: Support enterprise growth through flexible, scalable and managed technology services.

OHMS 2.0 strengthens the Company's ability to deliver end-to-end technology lifecycle management while supporting deeper customer engagement, service consistency and recurring revenue opportunities.

Expanding Cybersecurity and Digital Transformation Capabilities

Orient Technologies continues to strengthen its capabilities across cybersecurity, cloud infrastructure, end-user computing and digital transformation.

The Company remains focused on addressing enterprise priorities around infrastructure modernisation, cyber resilience, operational efficiency and secure digital adoption.

Its integrated portfolio positions the Company to support customers across their technology transformation journeys while creating opportunities for cross-selling and long-term services engagements.

Management Commentary

Ajay Sawant, Chairman and Managing Director, Orient Technologies Limited, said:

"Q2 FY27 marks an encouraging improvement in our operating performance, with consolidated EBITDA growing by 45.6 % sequentially and EBITDA margins expanding by 263 basis points to 10.20 %.

A key driver of this performance has been the increased contribution from our managed services business, which continues to strengthen the quality of our revenue mix and support improved profitability. This reflects our strategic focus on building long-term customer relationships and expanding our services-led portfolio.

Our AWS Managed Service Provider recognition and continued investments in OHMS 2.0, cybersecurity and digital transformation further strengthen our capabilities to address evolving enterprise technology requirements.

As we move into the second half of FY27, our priorities remain focused on profitable growth, operational efficiency, working capital discipline and expanding our managed services business. We remain committed to creating sustainable long-term value for our customers, employees and shareholders**."**

Business Outlook and Growth Priorities

Orient Technologies enters the second half of FY27 with a continued focus on profitable growth, services-led expansion and disciplined operational execution.

The Company remains committed to strengthening its managed services portfolio, deepening enterprise customer relationships and expanding opportunities across cloud, cybersecurity, infrastructure management and digital transformation.

Its strategic priorities include improving revenue quality, enhancing operating margins, strengthening working capital efficiency and developing differentiated technology capabilities.

As of September 30, 2026, the Company's order book stood at ₹331.61 crore, representing business expected to be billed up to March 31, 2027.

The Company remains focused on translating its business opportunities into sustainable growth while maintaining financial and operational discipline.

Shareholder Value and Dividend Announcement

Reaffirming its commitment to shareholder value creation, the Board of Directors has approved an interim dividend of ₹2 per equity share for FY27.

The announcement reflects the Company's continued focus on balancing shareholder returns with investments in strategic growth opportunities.

About Orient Technologies Limited

Orient Technologies Limited is an IT solutions and services provider with over 25 years of experience in delivering enterprise technology solutions. Its portfolio spans IT infrastructure, end-user computing, cloud services, cybersecurity, digital transformation and managed services.

The Company partners with enterprises to address their technology requirements through integrated solutions designed to support business continuity, operational efficiency, security and digital transformation.
