SGBS Unnati Foundation and Mphasis join hands for a greener Bengaluru

Bengaluru, September 11, 2026

[Mphasis](#), ([BSE: 526299](#); [NSE: MPHASIS](#)), a global AI-led, platform-driven technology solutions provider, is supporting an environmental sustainability initiative led by SGBS Unnati Foundation in collaboration with Bangalore Metro Rail Corporation Limited (BMRCL). This initiative recognizes the importance of collective action in advancing urban sustainability. As Bengaluru continues to evolve as a rapidly growing urban centre, creating greener and more sustainable public spaces requires greater collaboration across sectors.

This commitment takes shape through the current collaboration, under which SGBS Unnati Foundation has signed a Memorandum of Understanding (MOU) with BMRCL for the maintenance of Pier Nos. BP-382 to BP-437. The initiative will support the upkeep of the designated metro corridor while contributing to a cleaner and more sustainable public environment. The initiative builds on Mphasis' broader CSR commitment of working with social organisations, government institutions and community stakeholders to address environmental and community priorities.

SGBS Unnati Foundation made history by becoming the first NGO in India to be listed on the Social Stock Exchanges of both NSE and BSE in December 2023, marking a milestone in governance, transparency, and measurable social impact.

"Building sustainable communities requires more than individual efforts. It calls for organisations to come together and take shared responsibility for the places in which we live and work. At Mphasis, our CSR efforts are guided by this belief, with partnerships enabling us to support issues that are relevant to the communities around us. Our association with SGBS Unnati Foundation and BMRCL is a continuation of this efforts, enabling us to support an initiative that will strengthen the upkeep of Bengaluru's shared spaces while fostering a greater sense of collective responsibility towards the city's future," said **Deepa Nagraj, Senior Vice President & Global Head - ESG, Sparkle Innovation Ecosystem, and Communications, Mphasis.**

"Meaningful and sustainable community development is possible when organisations come together with a shared sense of responsibility. Our collaboration with Mphasis and BMRCL is a testament to this spirit, enabling us to contribute towards cleaner, better-maintained public spaces and a stronger sense of community ownership in Bengaluru," said **Dr. Ramesh Swamy, Director, SGBS Unnati Foundation.**

Bringing together BMRCL, SGBS Unnati Foundation and Mphasis, the initiative represents a cross-sector approach to addressing an urban priority. It combines institutional support, CSR participation and community-oriented implementation to create a model for sustained stewardship of shared urban spaces.

The initiative is part of a continued effort to support programmes that respond to local priorities through meaningful partnerships and sustained engagement. By bringing together organisations with complementary strengths, the collaboration aims to contribute to Bengaluru's environmental sustainability while creating value for the communities that call the city home.

Over the years, Mphasis has championed a range of environmental and community development initiatives, focusing on water conservation, lake rejuvenation, afforestation, and community welfare through strategic partnerships that drive long-term impact. As part of its commitment to ecological restoration, Mphasis supports the planting and maintenance of

100,000 trees at the Doddasagare Botanical Garden in Karnataka. The company is also contributing to the revival of Bodanahosahalli Lake, a project designed to enhance groundwater recharge, strengthen local biodiversity, and support Karnataka's broader water security goals. Further extending its water conservation efforts, Mphasis is helping establish 1,200 percolation wells across Bengaluru, with the aim of conserving an estimated 153 million litres of rainwater by 2026.

About Mphasis

At Mphasis, engineering has been in our DNA since inception.

Mphasis is an AI-led, platform-driven company with human-in-the-loop intelligence, helping global enterprises modernize, infuse AI, and scale with agility. The [Mphasis.ai](#) unit and Mphasis AI-powered ‘Tribes’ are focused on client outcomes and embed artificial intelligence and autonomy into every layer of the enterprise technology and process stack. Mphasis built [NeoIP™](#), a breakthrough AI platform that orchestrates a powerful pack of AI solutions and platforms to deliver impactful outcomes across the enterprise IT value chain, as we believe ‘*AI Without Intelligence Is Artificial™*’. Mphasis NeoIP™ is powered by the Ontosphere, a dynamic and ever-evolving knowledge base, delivering continuous and constant innovation through perpetual intelligent engineering—driving end-to-end enterprise transformation.

At the heart of our approach is customer-centricity—reflected in our proprietary [Front2Back™](#) transformation framework, which uses the exponential power of cloud and cognitive to deliver hyper-personalized digital experiences ($C=X2C^2_{TM}=1$) and build strong relationships with marquee clients. Our Service Transformation solutions enable enterprises to pivot from legacy systems and operations to secure, adaptive, cloud-first operating models with minimal disruption. Continuous investments in platforms, such as the Neo series, enable enterprises to stay efficient, relevant, and ahead in a dynamic AI-first world. Mphasis is a Hi-Tech, Hi-Touch, Hi-Trust company, rooted in a learning and growth culture. Click [here](#) to know more. ([BSE: 526299](#); [NSE: MPHASIS](#))
