Jindal Stainless wins six awards at the 12th National Awards for Manufacturing Competitiveness

- *The recognitions underscore Jindal Stainless' commitment to building future-ready manufacturing capabilities across its manufacturing units through digitalisation, innovation, and employee-led excellence*

Delhi, Hisar, July 24, 2026: As a validation to its commitment to manufacturing excellence, Jindal Stainless has won six prestigious honours at the 12th National Awards for Manufacturing Competitiveness (NAMC). The company's Hisar unit was conferred the Gold Medal and AatmaNirbhar Nation Builder Award under the AatmaNirbhar Factory Recognition Program (AFRP) for the fourth consecutive year along with the Diamond Medal for the second consecutive year, recognizing its sustained performance and operational excellence. The unit was also adjudged the 2nd Runner-Up in the overall NAMC rankings, further reinforcing its position as a benchmark for manufacturing excellence.

The Mundra unit secured the Silver Medal and the AatmaNirbhar Factory Recognition under the AatmaNirbhar Factory Recognition Program (AFRP), reflecting its commitment to manufacturing excellence, operational efficiency, and continuous improvement.

The achievement reflects the impact of several strategic initiatives implemented at the facility, including the adoption of Total Productive Maintenance (TPM) and Lean Manufacturing practices, advancement of digitalisation and Industry 4.0 initiatives, strengthening of quality, safety, health and environment (QSHE) systems, and fostering a culture of continuous improvement through quality circles. The unit has also focused on energy efficiency, sustainability, resource optimisation, employee capability development, cross functional collaboration, and customer-centric, data-driven operational excellence practices.

Commenting on the achievement, Managing Director, Jindal Stainless, Mr Abhyuday Jindal said, *“Receiving these recognitions reflects our unwavering commitment to operational excellence, innovation and continuous improvement. These awards are a testament to the dedication of our employees, who continue to enhance manufacturing competitiveness while creating long-term value for our stakeholders. We remain focused on adopting world-class manufacturing practices that strengthen India’s industrial growth and global competitiveness.”*

Both the units underwent a rigorous assessment conducted from April 6 to 8, 2026, competing against 170 manufacturing units from across the country. The awards were presented at the NAMC Award Ceremony, held at ITC Maratha, Mumbai, on July 17, 2026, by Padma Bhushan Dr A. Sivathanu Pillai, Founder, BrahMos Aerospace.

Unit Head – Hisar, Jindal Stainless, Mr. Vijay Kumar Bindlish, said, *“Winning these recognitions is a proud milestone for our Hisar unit and reinforces our commitment to world-class manufacturing practices. This recognition belongs to every employee whose dedication, discipline, and pursuit of operational excellence continue to strengthen our manufacturing capabilities and contribute to India’s vision of becoming a globally competitive manufacturing hub.”*

Instituted by the International Research Institute for Manufacturing (IRIM) in 2013, the National Awards for Manufacturing Competitiveness recognise organisations that demonstrate excellence in manufacturing practices through innovation, operational efficiency and sustainable competitiveness. Participating organisations undergo a comprehensive onsite assessment based on IRIM’s 10 Manufacturing Competitiveness Indicators, evaluating their ability to develop, implement and sustain world-class manufacturing systems.

About Jindal Stainless

India’s leading stainless steel manufacturer, Jindal Stainless, had an annual turnover of INR 42,955 crore (USD 4.86 billion) in FY26 and is ramping up its facilities to reach 4.2 million tonnes of annual melt capacity in FY27. It has 16 stainless steel manufacturing and processing facilities in India and abroad, including in Spain and Indonesia, and a worldwide network in 12 countries, as of March 2026. In India, there are ten sales offices and six service centres, as of March 2026. The company’s product range includes stainless steel slabs, blooms, coils, plates, sheets, precision strips, wire rods, rebars, blade steel, and coin blanks.

Jindal Stainless relies on its integrated operations to enhance its cost competitiveness and operational efficiency. Founded in 1970, Jindal Stainless continues to be inspired by a vision for innovation and enriching lives and is committed to social responsibility.

Jindal Stainless remains focused on a greener and sustainable future. The company manufactures stainless steel using electric arc furnace, a process that significantly reduces greenhouse gas emissions and allows for recyclability of scrap without compromising on quality.
