Dear Sir/Madam,

Sub: Media Release - Kirloskar Brothers Limited and its JV company, Kirloskar Ebara Pumps Limited, secures landmark order for Africa's Largest Refinery, Dangote Petroleum Refinery & Petrochemicals

Please find attached herewith a copy of the subject mentioned media release which is published on the website of the Company (www.kirloskarpumps.com) and also being published in leading newspapers/media prints/news channels.

Please note that the Company i.e. Kirloskar Brothers Limited (KBL) along with its joint venture company, Kirloskar Ebara Pumps Limited (KEPL), have jointly secured multiple orders. Besides, KBL's share in the combined orders, is below the applicable materiality threshold prescribed under Regulation 30 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 and is in the normal course of business. Hence, this announcement is for information purposes only.

You are requested to take the above on your records.

Thanking you,

Yours faithfully,

For **KIRLOSKAR BROTHERS LIMITED**

Kirloskar Brothers Limited And Its JV Company, Kirloskar Ebara Pumps Limited, Secures Landmark Order For Africa's Largest Refinery, Dangote Petroleum Refinery & Petrochemicals

Nov 20, 2026

Kirloskar Brothers Limited (KBL) and its joint venture company, Kirloskar Ebara Pumps Limited (KEPL), have jointly secured significant orders from the Dangote Petroleum Refinery & Petrochemicals in Lagos, Nigeria, marking a major achievement in the Group's global Oil & Gas and refining business. In the multiple purchase orders, with a combined order value of USD 38.94 million (366 crores), KEPL's share is valued at USD 21.34 million (201 crores), while KBL's share is USD 17.60 million (165 crores).

This refinery has a refining capacity of 700,000 barrels per day and petrochemical output of 830 Kilo Tonnes Per Annum. With their contribution to Africa's largest and most advanced refinery, KBL & KEPL will play a major role in strengthening Nigeria's energy security, reducing dependence on fuel imports and positioning Africa as a major exporter of refined petroleum products.

This landmark order reflects the Group's engineering expertise and extensive capabilities in delivering specialised pumping solutions for demanding energy applications. Both the companies have extensive proven track records spanning more than 140 offshore oilfields, with innumerable pump systems and installations worldwide. Both the companies have complementary API (American Petroleum Institute) and Non-API product portfolios serving critical applications across refineries, petrochemical and fertiliser plants, gas and LNG terminals and offshore facilities worldwide.

This order not only strengthens the group's presence in Africa's largest refining project but also represents another significant step in establishing KBL and KEPL among the leading global suppliers for strategic Oil & Gas developments worldwide.
